DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22, 24-26, and 29-33 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests channel quality assessment method as the current application. US publication 2003/0031231 A1, by You et al. is a very close art to the current application. Both You et al. and current application teaches a frequency synthesizer, a mixer, and channel quality detector in the system. However, You et al. failed to teach grouping of plurality of channels into a plurality of groups, and each plurality of groups have at least one channel. Determining a quality assessing value of a first select group. If the first selected group is not within a predetermined range, then it is unqualified group. If a second group is overlapped with the unqualified group, and a size of unqualified group is smaller than the selected group, the overlapping channels between unqualified group and second group are disabled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
